JOB TITLE

Ambitious Software Engineer dedicated to improving skills through hands-on learning and development work. Experienced in both front-end and back-end development. Quick learner with a penchant for details and writing clean code. An organizational wizard who multi-tasks and prioritizes with ease. Passionate about continued learning, collaborations, and problem-solving.

TECHNICAL SKILLS

JavaScript, React, Ruby, Rails, ActiveRecord, Postgres, HTML, CSS, Git, Heroku, API development

TECHNICAL PROJECTS

[Hot Dog Lover](#) - [Github](#) | [Demo](#)

A fun and interactive app where users can find hot dog restaurants in San Francisco, CA.

- Authenticated users at login/sign up via sessions & state, plus bcrypt for password security
- Customized database schema and REST API with ActiveRecord, Postgres, and Ruby on Rails
- Incorporated Google Maps API to display a map view of restaurants
- Applied CSS & state to display toppings on a hot dog image so users can create a personalized hot dog
